USB 3.1 Adapter Cable

USB 3.1 C plug > USB 3.0 A plug

This SCHWAIGER® USB 3.1 adapter cable is designed to transfer and synchronise data and can also be used for charging devices with USB 3.1 type C connectors. It enables connecting devices with USB 3.1 C jack such as smartphones, tablets or notebooks to

devices with USB 3.0 A jack, e.g. notebooks, computers or hard drives. The cable is based on the USB 3.1 standard and is equipped with the type C plug. This plug is particularly compact, reversible and suitable for universal use.
