

Delock WLAN EASY-USB Switch Smart Life

Description

This USB switch by Delock can be controlled via button or WLAN. With the cloud based Smart Life app, the switch can be turned on and off from anywhere. The app is compatible with voice assistants such as Amazon Alexa and Google Assistant.

Multifunctional application

The USB switch can be used to control all common USB loads, such as USB LED light strips or fans. The data lines are connected, so USB devices such as webcams can also be switched; in addition, operation with power supply units or power banks with fast charging function is possible. For example, the charging of mobile phones can be controlled in a targeted manner.
