

Mini Desktop Patch Panel RJ45 jack 6 port Cat.6A shielded black - for mounting on a table, wall or DIN rail

Description

This patch panel by Delock is the ideal solution for small network installations, distributions in switch cabinets or for applications with limited installation space.

Versatile mounting on a table, wall or DIN rail

The distributor can be mounted either on a table, on the wall or on 35 mm wide DIN rails. The clips included in the scope of delivery enable simple DIN rail mounting, ideal for distribution cabinets or industrial environments. Alternatively, direct wall mounting is also possible, e.g. in small technical rooms, distribution boxes or anywhere where no rack is available.

RJ45 jacks with dust protection flaps

The RJ45 jacks are equipped with practical dust protection flaps that protect the contacts from dirt and dust.

Metal housing

The robust black metal housing ensures durable and professional installation.
