Auto Focus

Live Streaming

Made for Business

Best for Video Meetings & Live Streaming

This Full HD webcam has a powerful Auto Focus function keeping you in focus, even when you're moving around. Also features a privacy cover to protect the lens and your privacy. With dual high-quality microphones designed to pick up everyone's voice, it's everything you need to have for great video conferencing.

with 6-Layer
Coated Lens

Real-time Autofocus, Spectacular Sharp and Clear

Comes with an auto-focus function that adjusts seamlessly whether you are close or further back from the camera. It captures razor-sharp high-definition images and video in every environment.

Privacy Cover, Enjoy a Safe Web Life

Allows you to control your video displays at any time, effectively protecting your privacy. Slide the webcam cover closed when not needed to block potential hackers; it's the perfect way to provide security and peace of mind to individuals, families, groups, companies, organizations and governments.

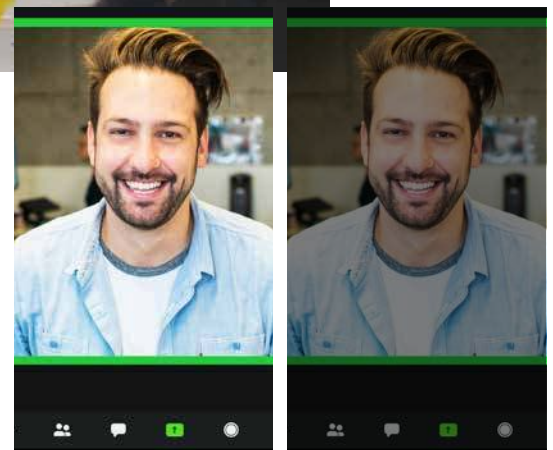

80° Wide Angle

An 80° wide angle field of view allows everyone in the room to be seen. Great for business video meetings in huddle rooms and other small workspaces.

Automatic Low Light Correction

Equipped with auto low light correction; adjusts the lighting to produce better quality and brighter images even when you are in a dim environment.

Built-in Dual Noise Reduction Mics

It is specifically optimized for ultra-clear conversations in the room; making sound purer and clearer.

360° Adjustable Rotation

360° rotation left/right and 90° tilt forward/backward to show your best side on every video call, wherever you are.

Plug-and-Play through USB Connection

Supports USB Video Device Class (UVC); making it easy to get it up and running.

Versatile Mounting Choices

Effortlessly mount the camera wherever you like; clamp on LCD screens, laptops, desktops or mount on your tripod.

*tripod not included

All-around Platform Compatibility

Compatible with Windows, Mac OS, Linux, Chrome OS and Android. Works with Skype, Microsoft Teams, Google Meet, Zoom, FaceTime, Facebook Messenger, OBS, XSplit, Twitch and more.
