

Alphacool Eiszapfen 8mm off set fitting rotatable G1/4 OT to G1/4 IT chrome

Alphacool article number: 17603

Quick Info

The Alphacool Eiszapfen is a rotatable 8 mm offset fitting with one internal thread and one external thread that can be easily tied into any water circuit.

- Integration made easy
- 360° rotatable
- Flexible positioning possible even in the tightest cases

Compatibility

G1/4" OT/IT threads

Scope of delivery

1x Alphacool Eiszapfen 8mm off set fitting rotatable G1/4 OT to G1/4 IT, chrome
3x O-ring (yellow, blue & red)

Technical data

L x W x H	24 x 22,5 x 18,5mm
Material	brass
Offset	8mm
Threads	G1/4" IT, G1/4" OT
Thread depth	5mm
Thread height	5mm
Weight	28g
Color	chrome

Packaging dimensions per unit

L x W x H	63 x 63 x 30 mm
Weight	37 g

Other data

Certificates	CE, FC, RoHS
EAN	4250197176033
Customs code	74198090990

Article text

The Alphacool Eiszapfen is a rotatable 8 mm offset fitting with one internal thread and one external thread that can be easily tied into any water circuit.

Integration made easy

The offset piece is very compact and can be integrated into any water cooling system thanks to its G1/4" internal and external threads. It is simply screwed onto the corresponding G1/4" connections at the desired position in the water circuit.

Design

The threads are 5mm deep and 5mm high respectively, thus enabling the very compact design. The offset piece can also be rotated 360°, which provides additional flexibility for integration even in the tightest cases.

Coloured O-rings

In addition to the standard black O-ring, 3 more O-rings in red, yellow and blue are included.
