Diamond Technology for precise and clean cuts

Jigsaw blades for clean, powerful cuts through a variety of materials. Tough jobs require tough tools. Low quality metal-cutting jigsaw blades mean frequent replacement. Even if you're just using your jigsaw blades for wood, you need to make sure they're as durable as they are high performing. Our EXPERT jigsaw blades have carbide teeth, which means greater rigidity and resistance to abrasive materials. This gives you better, cleaner cuts for longer. Our jigsaw blades cut through plastic, metal, wood and laminate. Discover our wide range of long jigsaw blades and find the best blade for your next task.
